# **The 2011 Social Security Number Verification Manual**

Stop identity thieves dead in their tracks by taking away their most-commonly-used tool – the Social Security number. The 26th Annual Edition of the NABS/Profit Protection, LLC Social Security Number Verification Manual helps you and your new account staff identify potential identity thieves before they can get a toehold in your institution. The manual shows how to use a person's Social Security number to help determine if they are using fraudulent identification to apply for an account. It also helps document your institution's compliance with the law — both BSA and FACTA require obtaining and verifying your customer's tax ID numbers.

**The manual tells you if a Social Security number presented for identification is:**

- **Impossible.....**A number that will never be issued.
- **Unissued .....**Of the nearly one billion possible numbers, fewer than 45 percent have been issued.
- **Issued .....**Provides the state in which it was issued and the year issued.
- **Improbable .....**The number does not fit the age of the person.

**At \$69.95, there's no reason why a copy of this essential identity theft prevention tool shouldn't be at every new account desk in every one of your branches. And as a previous purchaser or *Advisor* subscriber, you receive a \$10 discount per copy. Here are several more good reasons why you should purchase this manual:**

- 1.It's quick, easy to use and always at your staff's fingertips.
- 2.No waiting to get online, no login procedures and passwords to remember.
- 3.No concerns about online posting of SSNs.
- 4.Receive a mid-year update at no cost when published in July for each copy of the 2011 manual purchased now. Due to implementation of *Social Security Number Randomization* on June 25, 2011, this mid-year update will be the last ever produced and will be valid forever for all SSNs issued up to that date.
- 5.Order five or more copies and take a \$5 discount per copy.
- 6.Order 10 or more copies and take a \$10 per copy discount.
